# Corpse Bride Vibes

COUPLES WHO SKATE TOGETHER STAY TOGETHER

We all love a bit of a Tim Burton vibe and Corpse Bride is a firm favourite, loved by millions! But have you ever seen a Corpse Bride inspired wedding? We certainly hadn't until Jodie from Ella Bella Weddings and Events sent us this stunner! We absolutely had to find out more from Jodie...

"This shoot took inspiration from Tim Burton's film, The Corpse Bride. We wanted to come up with what the wedding would have looked like if Victor and Emily had gone ahead.

My weird and wonderful team all came together with our own interpretations of the film with the colours blues, purples and blacks with the well known dark twist. I love how the photographer has captured the essence of the gloomy and dark vibe."

If you're a fan of Tim Burton's dark and whimsical masterpiece, "The Corpse Bride," and you've always dreamed of bringing its eerie charm to your wedding day, then hold onto your top hats and get ready for a journey into the macabre! Here's how to create a wedding day inspired by the hauntingly beautiful world of "The Corpse Bride."

First things first, let's set the stage. Choose a venue with Gothic architecture, old-world charm, or perhaps even a cemetery backdrop for that extra touch of drama. Think candlelit halls, twisted trees, and gothic arches draped with cobwebs to transport your guests into the hauntingly romantic world of the film.

Now, onto the attire! Embrace the vintage Victorian style of "The Corpse Bride" with wedding attire that's both elegant and eerie. For the bride, consider a gown with delicate lace, flowing sleeves, and perhaps even a touch of blue to nod to Emily, the titular character. Don't forget to accessorize with dark, romantic details like black lace gloves, a dramatic veil, and a bouquet of deep purple flowers. For the groom, channel Victor's dapper look with a tailored suit in shades of grey or black, paired with a crisp white shirt and a dark tie or bowtie. Add a boutonniere featuring black roses or other dark blooms for a subtle nod to the film's aesthetic.

## Embrace the Darkness

When it comes to decor, think gothic romance meets whimsical charm. Incorporate elements like antique candelabras, vintage-inspired table settings, and elaborate centrepieces adorned with black feathers, deep red roses, and hints of blue to evoke the film's enchanting atmosphere. When it comes to food and drinks, embrace the darker side of the menu with a selection of gothic-inspired treats. Think blackberry cocktails, dark chocolate desserts, and

perhaps even a themed wedding cake adorned with intricate sugar skulls or fondant flowers reminiscent of the film's aesthetic. With these tips in mind, you'll be well on your way to creating a wedding day that's straight out of Tim Burton's twisted imagination. So go ahead, embrace the darkness, the romance, and the whimsy, and let your love shine as brightly as the moonlight in the Land of the Dead.
